Reviewer’s report

Title: Jacarehypeol A induced apoptosis in leukaemia cancer cell through inhibition the activity of BCL2 Proteins

Version: 4 Date: 24 July 2014

Reviewer: Karin Joehrre

Reviewer’s report:

The authors responded sufficiently to my concerns and the manuscript improved essentially!

One additional concern:
Lane 65-68 in "Background" is also exactly found in the Discussion section (lane 369-372)
and lane 276-283 in the "Results" section shows the same wording as lane 356-363 in the Discussion section.
There are still some minor spelling mistakes, please proof-read!

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
