Version: 1 Date: 23 December 2013

Reviewer: Angel G. Garcia Martin

Reviewer’s report:

Minor Essential Revision

The authors should include a table in supplementary info with all the relevant clinical data from all the patients included in the study.

Although the manuscript is written in standard english and is readily understandable, there are numerous typos all over the text (such as "progression", "tumors", "function", "dance", "therapy" or "metastasis" that should be corrected.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
