Reviewer's report

Title: Stromal, rather than epithelial cyclooxygenase-2 (COX-2) expression is associated with overall survival of breast cancer patients

Version: 2 Date: 12 September 2014

Reviewer: Fatima Baltazar

Reviewer's report:

The authors have addressed all the raised issues and did the corresponding changes in the revised manuscript. Thus, I consider that the manuscript is now ready for publication.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
