Reviewer's report

Title: Diagnostic value of retrospective PET-MRI fusion in head-and-neck cancer

Version: 1
Date: 22 July 2014

Reviewer: Jinha Park

Reviewer's report:

Please make some minor essential revisions. Overall, good article that is needed in areas of future applications of a combined PET/MRI scanner.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
