Reviewer's report

**Title:** A case-control study of glycemic index, glycemic load and dietary fiber intake and risk of adenocarcinomas and squamous cell carcinomas of the esophagus: the Australian Cancer Study

**Version:** 3  **Date:** 5 October 2014

**Reviewer:** Natasha Tasevska

**Reviewer's report:**

Authors have now conducted further sensitivity and sub-group analyses. It would be useful if all those additional analyses are being summarized under methods. Otherwise, I have no further comments on the manuscript.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests.
