Reviewer's report

**Title:** microRNA-141 inhibits cell proliferation and invasion and promote apoptosis by targeting hepatocyte nuclear factor-3beta in hepatocellular carcinoma cells.

**Version:** 3  **Date:** 22 July 2014

**Reviewer:** Marco d'Anzeo

**Reviewer's report:**

Minor essential revisions

The article is well written in english and had an importance in its field.
The discussion is adequately supported by the data but it’s not well balanced and requires a more in-depth and critical commentary of the results.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
