Reviewer's report

**Title:** High Nuclear/Cytoplasmic Ratio of Cdk1 Expression Predicts Poor Prognosis in Colorectal Cancer Patients

**Version:** 2  **Date:** 25 August 2014

**Reviewer:** Klaus-Peter Janssen

**Reviewer's report:**

Minor essential revisions -
as stated in the written report (e.g., provide negative control for antibody staining)

However, the prognostic value of CDK1 N/C staining should be tested on an independent test set of samples, this would add greatly to the impact of the manuscript

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
