Reviewer's report

Title: A Retrospective Study on the Use of Post-Operative Colonoscopy Following Potentially Curative Surgery for Colorectal Cancer in a Canadian Province

Version: 2 Date: 7 April 2004

Reviewer: Gregory Cooper

Reviewer's report:

General
All relevant revisions have been made.

-------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
