Reviewer's report

Title: Usefulness of PKH to study leukemic cell proliferation with various cytostatic drugs or acetyl tetrapeptide -AcSDKP

Version: 3 Date: 30 June 2005

Reviewer: Guenter Valet

Reviewer's report:

General

- the initially submitted manuscript has been adequately revised by the authors

--------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

- none

--------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

- p.14 par.2: should probably read "demonstrated the power of PKH67 ..."

--------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

- none

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable
