Reviewer's report

Title: Kinetic Analysis Dynamic [18F]-Fluoromisonidazole PET Correlates with Radiation Treatment Outcome in Head-and-Neck Cancer

Version: 2 Date: 14 October 2005

Reviewer: Rodney Hicks

Reviewer's report:

General
The authors have addressed all outstanding issues from my previous assessment.

-------------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
Not required.

-------------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
Not required.

-------------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-------------------------------------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
