Reviewer’s report

Title: Prevalence of Von Hippel-Lindau gene mutations in sporadic Renal Cell Carcinoma: results from the Netherlands Cohort Study

Version: 3 Date: 2 May 2005

Reviewer: Christophe BEROUD

Reviewer’s report:

Revisions by the authors were very well done and make the paper even more valuable.
New tables are now easy to read and give valuable informations such as the mutation name according to the international nomenclature.
Discussion also includes additional data valuable for the community.

I recommand the publication of this paper.

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable
