Reviewer’s report

Title: Phase II Trial of Weekly 24-Hour Infusion of Gemcitabine in Patients with Advanced Gallbladder and Biliary Tract Carcinoma

Version: 3 Date: 23 May 2005

Reviewer: Nicolas Tsavaris

Reviewer’s report:

In reviewing the revised manuscript, the authors have answered my points sufficiently well, improving the writing, their manuscript can be published.

Discretionary Revisions (which the author can choose to ignore)

In the accessible bibliography to me ther is no case of duplication, because there is no published data with continuous infusion of Gemcitabine in Cholangiocarcinoma, and second authors used their therapy in patient older than 75, and this is impressive.
