Reviewer’s report

Title: HIF1-alpha overexpression indicates a good prognosis in early stage squamous cell carcinomas of the oral floor

Version: 3 Date: 14 June 2005

Reviewer: Kurt Werner W Schmid

Reviewer’s report:

General
The authors have sufficiently responded at least to my criticism.

-------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-------------------------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
