Reviewer’s report

Title: Novel curcumin- and emodin-related compounds identified by in silico 2D/3D conformer screening induce apoptosis in tumor cells

Version: 2 Date: 7 July 2005

Reviewer: Peter Daniel

Reviewer’s report:

General

The authors submit a revised version of their manuscript. All critical points were addressed to my full satisfaction.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

none

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

none

Discretionary Revisions (which the author can choose to ignore)

none

What next?: Accept without revision

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No
