Reviewer's report

Title: A new extract of the plant calendula officinalis produces a dual in vitro effect: cytotoxic anti-tumor activity and lymphocyte activation

Version: 2 Date: 13 April 2006

Reviewer: Rathin K Bhattacharya

Reviewer's report:

General
The paper as submitted after review is suitable for publication.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
The authors have responded to all the queries put forward, and have agreed to incorporate additional paragraphs in response to my queries. I am satisfied with these responses.

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct) Language corrections have also been taken care of by the authors.

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
