Reviewer's report

Title: A new extract of the plant calendula officinalis produces a dual in vitro effect: cytotoxic anti-tumor activity and lymphocyte activation

Version: 2 Date: 25 April 2006

Reviewer: KYUNG-SUN Kang

Reviewer's report:

General
The revised manuscript is now acceptable in the present form.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision
