Reviewer’s report

Title: Administration of Zoledronic Acid Enhances the Effects of Docetaxel on Growth of Prostate Cancer in the Bone Environment

Version: 2 Date: 16 December 2005

Reviewer: Philippe Clezardin

Reviewer’s report:

General
The authors have correctly answered to the different points I initially raised. The revised manuscript is therefore suitable for publication.

--------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

--------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

--------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
The reviewer has a non-financial competing interest in relation to the paper.
