Reviewer's report

Title: TSPY potentiates cell proliferation and tumorigenesis by promoting cell cycle progression in HeLa and NIH3T3 cells

Version: 2 Date: 31 May 2006
Reviewer: Joachim Arnemann

Reviewer's report:

General
The authors have followed the suggestions made by the reviewers and thus improved the quality of the manuscript. The authors’ response to the reviewers was very helpful. I can now recommend the manuscript for publication.

-----------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

no

-----------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

no

-----------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

no

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
