Reviewer's report

Title: Polymorphisms of XRCC1 genes and risk of nasopharyngeal carcinoma in the Cantonese population

Version: 4 Date: 20 April 2006

Reviewer: Allan Hildesheim

Reviewer's report:

General

The authors have adequately addressed all comments

----------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

----------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

----------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

----------------------------------------------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable
