Reviewer's report

Title: Prognostic significance of composite expressions of MCM2, Ki-67 and gelsolin in non-small cell lung cancer

Version: 3 Date: 6 June 2006
Reviewer: Anne-Pascale Meert

Reviewer's report:

General

--------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

--------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

--------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

--------------------------------------------------------------------------------------------------------------------

What next?: Accept without revision
