Reviewer's report

Title: Increased mRNA expression levels of ERCC1, OGG1 and RAI in colorectal adenomas and carcinomas.

Version: 2 Date: 9 August 2006

Reviewer: Sima Salahshor

Reviewer's report:

General

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

- 

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

- 

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

- 

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
