Reviewer's report

Title: In vivo glioblastoma growth is reduced by apyrase in a rat glioma model

Version: 3 Date: 2 August 2006

Reviewer: Rafal Czajkowski

Reviewer's report:

General

The authors managed to revise manuscript in a satisfying way. The explanations and additional results provided are sufficient.
I would only suggest a slight change in the title (this is discrentional):

In vivo glioblastoma growth is reduced by apyrase ACTIVITY in a rat glioma model.

I wish the authors good luck with their project :)
