Reviewer's report

Title: In vivo glioblastoma growth is reduced by apyrase in a rat glioma model

Version: 3 Date: 29 August 2006

Reviewer: cinzia volonte

Reviewer's report:

General
In this resubmission, the authors made a meticulous effort to improve their manuscript as suggested, with further experimental data, information and details added to the text, confirming and refining the overall results presented. In my opinion, the manuscript is now ready for publication.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
