Reviewer's report

Title: Four cycles of paclitaxel and carboplatin as adjuvant treatment in early-stage ovarian cancer: the experience of the Hellenic Cooperative Oncology Group.

Version: 2 Date: 9 August 2006
Reviewer: gamal H eltabbakh

Reviewer's report:

General
I think that the revised manuscript is now acceptable for publication.

------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

------------------------------------------------------------------------------------------

What next?: Accept without revision
