Title: Prognostic significance of fascin expression in advanced colorectal cancer: an immunohistochemical study of colorectal adenomas and adenocarcinomas

Version: 2 Date: 7 September 2006

Reviewer: Upender Manne

Reviewer's report:

General
The authors have responded satisfactorily to my review comments, now the manuscript may be accepted for the publication.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision
