Reviewer's report

Title: Phase II Trial of Sequential Gefitinib After Minor Response or Partial response to Chemotherapy in Chinese Patients with Advanced Non-Small-Cell Lung Cancer

Version: 5 Date: 27 November 2006

Reviewer: Martin Reck

Reviewer's report:

General
After the revision of manuscript by the authors all my comments were covered and I do not have any further issues. However this study remains an experimental and exploratory study with limited influence on the clinical situation.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

Discretionary Revisions (which the author can choose to ignore)
None

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
