Reviewer's report

Title: Prognostic significance of multidrug-resistance protein (MDR-1) in renal clear cell carcinomas: a five years follow-up analysis.

Version: 4 Date: 27 November 2006

Reviewer: Yoichi Mizutani

Reviewer's report:

General
Although the number of examined was too small, this manuscript is well written and conceived.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No
