Title: The knowledge and attitudes of breast self-examination and mammography in a group of women in a rural area in western Turkey

Version: 5 Date: 22 February 2006

Reviewer: Anette Hjartåker

Reviewer's report:

General
The reviewer's major objection to the previous version of the manuscript has been met. The manuscript still gives the impression of some inaccuracy and would benefit from further revision and structuring, but may be published in its present form.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
