Reviewer's report

Title: 3-Phosphoinositide-dependent Protein Kinase-1 (PDK1) Promotes Invasion and Activation of Matrix Metalloproteinases

Version: 1 Date: 22 February 2006

Reviewer: Howard Crawford

Reviewer's report:

General
The authors have adequately addressed my previous concerns and I recommend publication.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision
