Reviewer's report

Title: Prognostic value of monitoring tumour markers CA 15-3 and CEA during fulvestrant treatment

Version: 2 Date: 6 March 2006

Reviewer: Kwok-Leung L Cheung

Reviewer's report:

General
I am happy with the revisions made.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------------------------
