Reviewer's report

Title: Mammaglobin A and lipophilin B are co-expressed in breast cancer and gynecologic malignancies

Version: 3 Date: 13 March 2006

Reviewer: Timothy Fleming

Reviewer's report:

General - None - the authors have addressed previous concerns and modified the manuscript to address those concerns.

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct) None

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:

We hold patents relating to mammaglobin and have received licensing fees for those patents.
