Reviewer’s report

Title: Small primary adenocarcinoma in adenomyosis with nodal metastasis: a case report

Version: 2 Date: 22 February 2007

Reviewer: Alessandra Nascimento

Reviewer’s report:

General

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

Even though the authors addressed many (most in fact) of the criticisms made by both reviewers, I still think I couple of lines should be inserted under the pathologic findings describing the existence (or lack of) stromal invasion.

What next?: Accept after discretionary revisions

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
