Reviewer's report

Title: Case-only study of interactions between metabolic enzymes and smoking in colorectal cancer

Version: 3  Date: 16 April 2007

Reviewer: José M. M Ladero

Reviewer's report:

General

I find that the submitted revised version of the article copes with the most important question posed in my review, and hence I consider that it is adequate for publication

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
