Reviewer’s report

Title: Down-regulation of SFRP1 as a putative tumor suppressor gene can contribute to human hepatocellular carcinoma

Version: 2 Date: 25 April 2007
Reviewer: Toshikazu Ushijima

Reviewer’s report:

General

The authors admirably modified the manuscript. The revised manuscript is clear, and easy to read.

----------------------------------------------------------------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
None

----------------------------------------------------------------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
None

----------------------------------------------------------------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)
None

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
