Reviewer's report

Title: Using additional immunohistochemical markers can refine prognosis in triple negative breast cancer

Version: 1 Date: 5 April 2007

Reviewer: Radzislaw Kordek

Reviewer's report:

General
Actual topic, well done study with interesting results.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
