Reviewer's report

Title: PI3K Activation is Associated with Intracellular Sodium/Iodide Symporter Protein Expression in Breast Cancer

Version: 2 Date: 3 July 2007

Reviewer: Takahiko Kogai

Reviewer's report:

General
The revised manuscript has been improved appropriately. Since the correlation between Akt phosphorylation and NIS expression is a novel finding, table 1 should be included in the body of the article, but not in a supplement.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept after discretionary revisions

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
