Reviewer's report

**Title:** Synoptic Tool for reporting of Hematological and Lymphoid neoplasms based on World Health Organization classification and College of American Pathologists checklist

**Version:** 4  **Date:** 31 May 2007

**Reviewer:** Manjula Murari

**Reviewer's report:**

General

-------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
Result section does not appear revised or enriched adequately.

-------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
Suggested minor revisions have been taken care of to some extent.

-------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-------------------------------------------------------------------

**What next?:** Unable to decide on acceptance or rejection until the authors have responded to the major compulsory revisions

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Needs some language corrections before being published

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
'I declare that I have no competing interests'
