Reviewer's report

Title: Therapeutic effects of STAT3-decoy oligodeoxynucleotide on human lung cancer in xenograft

Version: 2 Date: 25 April 2007

Reviewer: salih sanlioglu

Reviewer's report:

General
It seems that the authors satisfactorily responded to each question. Even though they were unable to confirm the results using a second non-small cell line this can be left to their own discretion. The manuscript is acceptable in its current form.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
