Reviewer's report

Title: CHEK2 1100delC is prevalent in Swedish early onset familial breast cancer

Version: 3  Date: 15 July 2007

Reviewer: Kathleen Claes

Reviewer's report:

General

Dear Dr Norton,

the authors adequately responded to my (minor) concerns and applied some changes, where relevant, in the revised manuscript. Sincerely, Kathleen Claes

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
