Reviewer's report

Title: Radiotherapeutic alternatives for previously irradiated recurrent gliomas.

Version: 1 Date: 12 July 2007

Reviewer: Henry S Friedman

Reviewer's report:

General

this ms is a moderately comprehensive review of the literature that i found a helpful review

it warrants publication though only for health care people working in the brain tumor field

i would accept but consider it to have limited interest

-------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
