Reviewer's report

Title: Clonal mutations in primary human glial tumors: evidence in support of the mutator hypothesis

Version: 4 Date: 17 August 2007

Reviewer: Dolores Arjona

Reviewer's report:

General
Thank you for your responses to the issues raised.

-----------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
