Reviewer's report

Title: Proteome analysis of human gastric cardia adenocarcinoma by laser capture microdissection

Version: 2 Date: 28 August 2007

Reviewer: Chengchao Shou

Reviewer's report:

General

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Overall, the manuscript had been greatly improved as per reviewers' comments, although there are still few typos or grammatic errors, and the quality of Figure 5 should be improved. I agree to accept the manuscript after minor essential revisions.

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
