Reviewer's report

Title: Nuclear localization and and cytosolic overexpression of LASP-1 correlates with tumor size and nodal-positivity of human breast carcinoma

Version: 4 Date: 2 October 2007

Reviewer: ALFONSO DUENAS-GONZALEZ

Reviewer's report:

General

-----------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

The observations were addressed.

-----------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

'I declare that I have no competing interests'
