Reviewer's report

**Title:** Genomic imbalances in 5918 malignant epithelial tumors: An explorative meta-analysis of chromosomal CGH data.

**Version:** 5  **Date:** 8 November 2007

**Reviewer:** Bradley Coe

**Reviewer's report:**

**General**

The latest version of "Genomic imbalances in 5918 malignant epithelial tumours: An explorative meta-analysis of chromosomal CGH data" by Michael Baudis addresses all of my previous concerns, and I believe it is suitable for publication in its current form.

--------------------------------------------------------------------------------------------------------

**Major Compulsory Revisions** (that the author must respond to before a decision on publication can be reached)

--------------------------------------------------------------------------------------------------------

**Minor Essential Revisions** (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

--------------------------------------------------------------------------------------------------------

**Discretionary Revisions** (which the author can choose to ignore)

--------------------------------------------------------------------------------------------------------

**What next?:** Accept without revision

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**
