Reviewer's report

Title: Classification tree analysis of second neoplasms after childhood cancer

Version: 2 Date: 18 October 2006

Reviewer: Gregory Reaman

Reviewer's report:

General

-----------------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

No revisions necessary

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
