Reviewer's report

Title: HER-2, p53, p21 and hormonal receptors proteins expression as predictive factors of response and prognosis in locally advanced breast cancer treated with neoadjuvant docetaxel plus epirubicin combination

Version: 3 Date: 6 February 2007

Reviewer: Sehwan Han

Reviewer's report:

General
The part which I pointed were well mentioned.
The "discussion" seems still redundant and mistype was detected on the first paragraph of the "Discussion", citotoxic should be revised as 'cytotoxic'.
Decision on the publication is to be made by the editor.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)
