Reviewer’s report

Title: A new molecular breast cancer subclass defined from a large scale real-time quantitative RT-PCR study

Version: 2 Date: 19 January 2007

Reviewer: Alessandro Weisz

Reviewer’s report:

The A.s modified the manuscript and included sufficient information and explanation to answer to my initial criticisms.

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
