Reviewer’s report

Title: Automated array-CGH optimized for archival formalin-fixed, paraffin-embedded tumor material

Version: 4 Date: 19 February 2007

Reviewer: Jorge Sergio Reis Filho

Reviewer’s report:

General
The re-revised version of manuscript has improved significantly and is an important step towards optimisation and automation of microarray-based CGH.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
