Reviewer's report

Title: A procedure for the detection of linkage with high density SNP arrays in a large pedigree with colorectal cancer

Version: 2 Date: 4 December 2006

Reviewer: sally john

Reviewer's report:

General
The authors have made all the suggested alterations that were suggested.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)
none

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)
none

Discretionary Revisions (which the author can choose to ignore)
None

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
