Reviewer's report

Title: Assessment of the Toll-like receptor 4 Asp299gly, thr399Ile and Interleukin-8 -251 polymorphisms in the risk for the development of distal gastric cancer

Version: 2 Date: 19 January 2007
Reviewer: Richard Peek

Reviewer's report:

General
The authors have completely and adequately addressed all my previous concerns.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
I declare that I have no competing interests.
